At **INVERTED INVESTMENT** We bring everything you need as an investor or project founder under one roof, making the crypto platform safer and more transparent for everyone. We make using dApp facilities running on the Web3 layer easy. We keep everyone safe by concluding KYC and audit, smart contract, dApp development and Liquidity lock with our strategic partners SUBX, IdoPresales, InterFI, Coinsult and Solidproof. We are here to keep everyone safe and reward every INFI holder for being loyal and believing in us.

Working together with professional blockchain companies we're focusing on decentralized and centralized systems by ensuring your privacy and keeping your investments safe, while at the same time, you'll not only benefit from high revenues but also from our Metaverse Gaming Platform.

**Diverse and Unique Portfolio:** Our portfolio includes five large and unique projects, all of which are based on INFI MultiChain. By holding INFI we grant you the right to enjoy it, play it and live it!

We use our own strategies to invest in our ecosystem. This makes us safe, stable and unique. We believe that knowing every aspect of the investment leads to success. This is why we decided to reward our INFI holders with up to 25% monthly revenue in stable coins deposited to their account. **IT MAKES SENSE TO HOLD INFI!**

We keep our investments disciplined and insist on following our process to make them stronger and more stable. We stay in the game by holding an emergency fund.

We are committed to responsible investment: our investment approach explicitly acknowledges the importance of environmental, social, and governance factors to the investor, as well as the long-term health and stability of the market as a whole.

Four principles guide our investment strategy

- ☑ creating clear and appropriate investment goals
- ☑ developing a suitable asset allocation using broadly diversified funds
- ☑ maintaining perspective and long-term discipline
- ☑ minimizing costs

Thank You

Our Ecosystem is based on special reward protocol ecosystem.  
NFIFUND Investment Plan will secure INFI holders with up to 25% monthly revenue in stable coins of all profit generated by Inverted Investment and up to 5.5BNB worth of free allocation from upcoming projects released by Inverted Investment. To qualify for our Reward Protocol System, you'll have to stake your INFI allocation for the minimum time frame via our staking dApp. Before the INFIFUND Investment Plan goes live, the terms and conditions will be shared.

# INFI MULTICHAIN AND THE INFI TOKEN

The 10%  Reward System

The INFI Multichain CEX/DEX platform is the base of all our projects and INFI is our token. Beside rewarding our holders with 10% BTC rewards, INFI holders will gain up to 25% monthly revenue in stable coins of all profit generated by Inverted Investment and up to 5.5BNB worth of free allocation from upcoming projects released by Inverted Investment

**INIF Multichain** is a dApp-oriented platform that provides INFI holders with two staking opportunities, one of which is linked to NEXO. Stake real money or choose from our most-ranked crypto assets, including ETH, BTC, AXIE, stable coins, and many more, for a high APY that will be deposited daily into your secured INFI Wallet. You can swap any coin and get the best currency rates across DEX exchanges using our DEX Aggregator dApp. Our CEX/DEX platform will be operational in Q2 or Q3 of 2023.

We are proud to be affiliated with NEXO.
