About the Company

Inverted Investment is a company centered around INFI holders, driving various innovative projects. INFI serves as the internal currency supporting the entire system, overseen by the world's initial self-building smart ecosystem, the @SbSe Protocol. Holding INFI grants you a stake in Inverted Investment.

INFI holders receive a generous 60% portion of the organization's monthly profits, distributed as 50% USDT and 10% Bitcoin on a prompt monthly basis.

In addition to our appealing passive monthly income, our portfolio extends to Cyber Security, Digital Trading Platform, Web4 Digital Payment Framework across industries, and Metaverse-Gaming.

MISSION

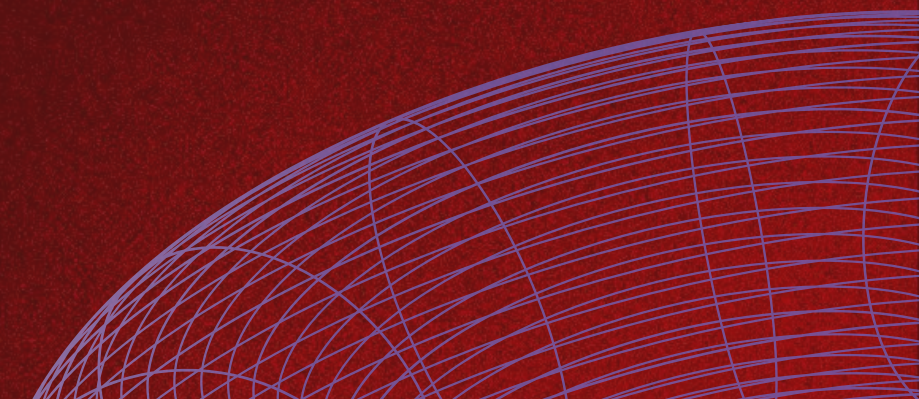

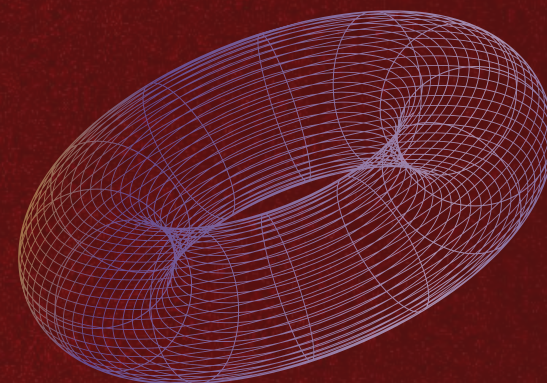

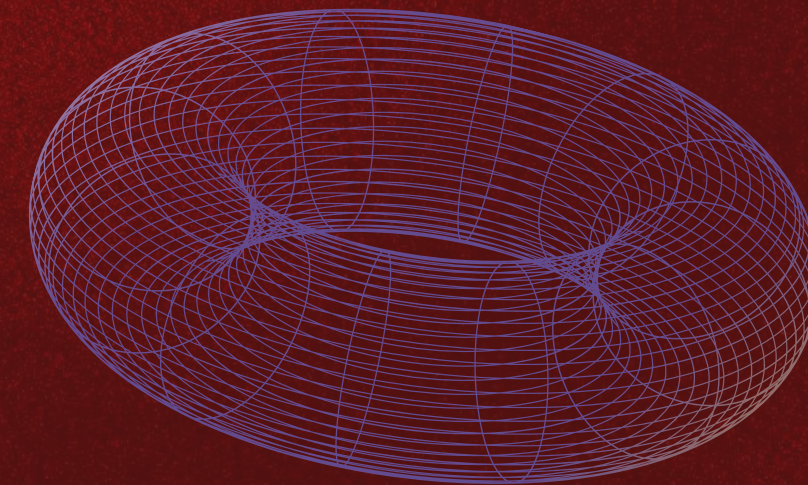

Our mission is dedicated to protecting users' investments in a decentralized environment, without possessing their personal informations or having control over their digital assets. A secured trading environment safeguarded by cyber security firms.

VISION

Our unique digital payment concept expands beyond the borders, by bridging the gap between traditional finances, the realm world of cryptocurrencies and blockchains.

Our Mission and Vision

Decentralized trading environment.
Innovative digital payment system.

Our Goals

INFI MultiChain CDEX, OpenWebFour, Wear to Earn

INFI CDEX MULTICHAIN EXCHANGE

Operates on a decentralized system, governed by our proprietary world's first self-builder smart ecosystem, the ©SbSe Protocol. Beside our attractive USDT rewards, with our innovative Special Liquidity Management ensuring everyone a safe and transparent trading environment.

OPEN WEB FOUR – WEB4

The innovative WEB4-based digital borderless payment system is designed to enhance speed and enable seamless transactions across blockchains, bank accounts, online shopping, e-banking, online utility bill payments, and currency exchanges, ensuring passive income for both those familiar and unfamiliar with crypto services.

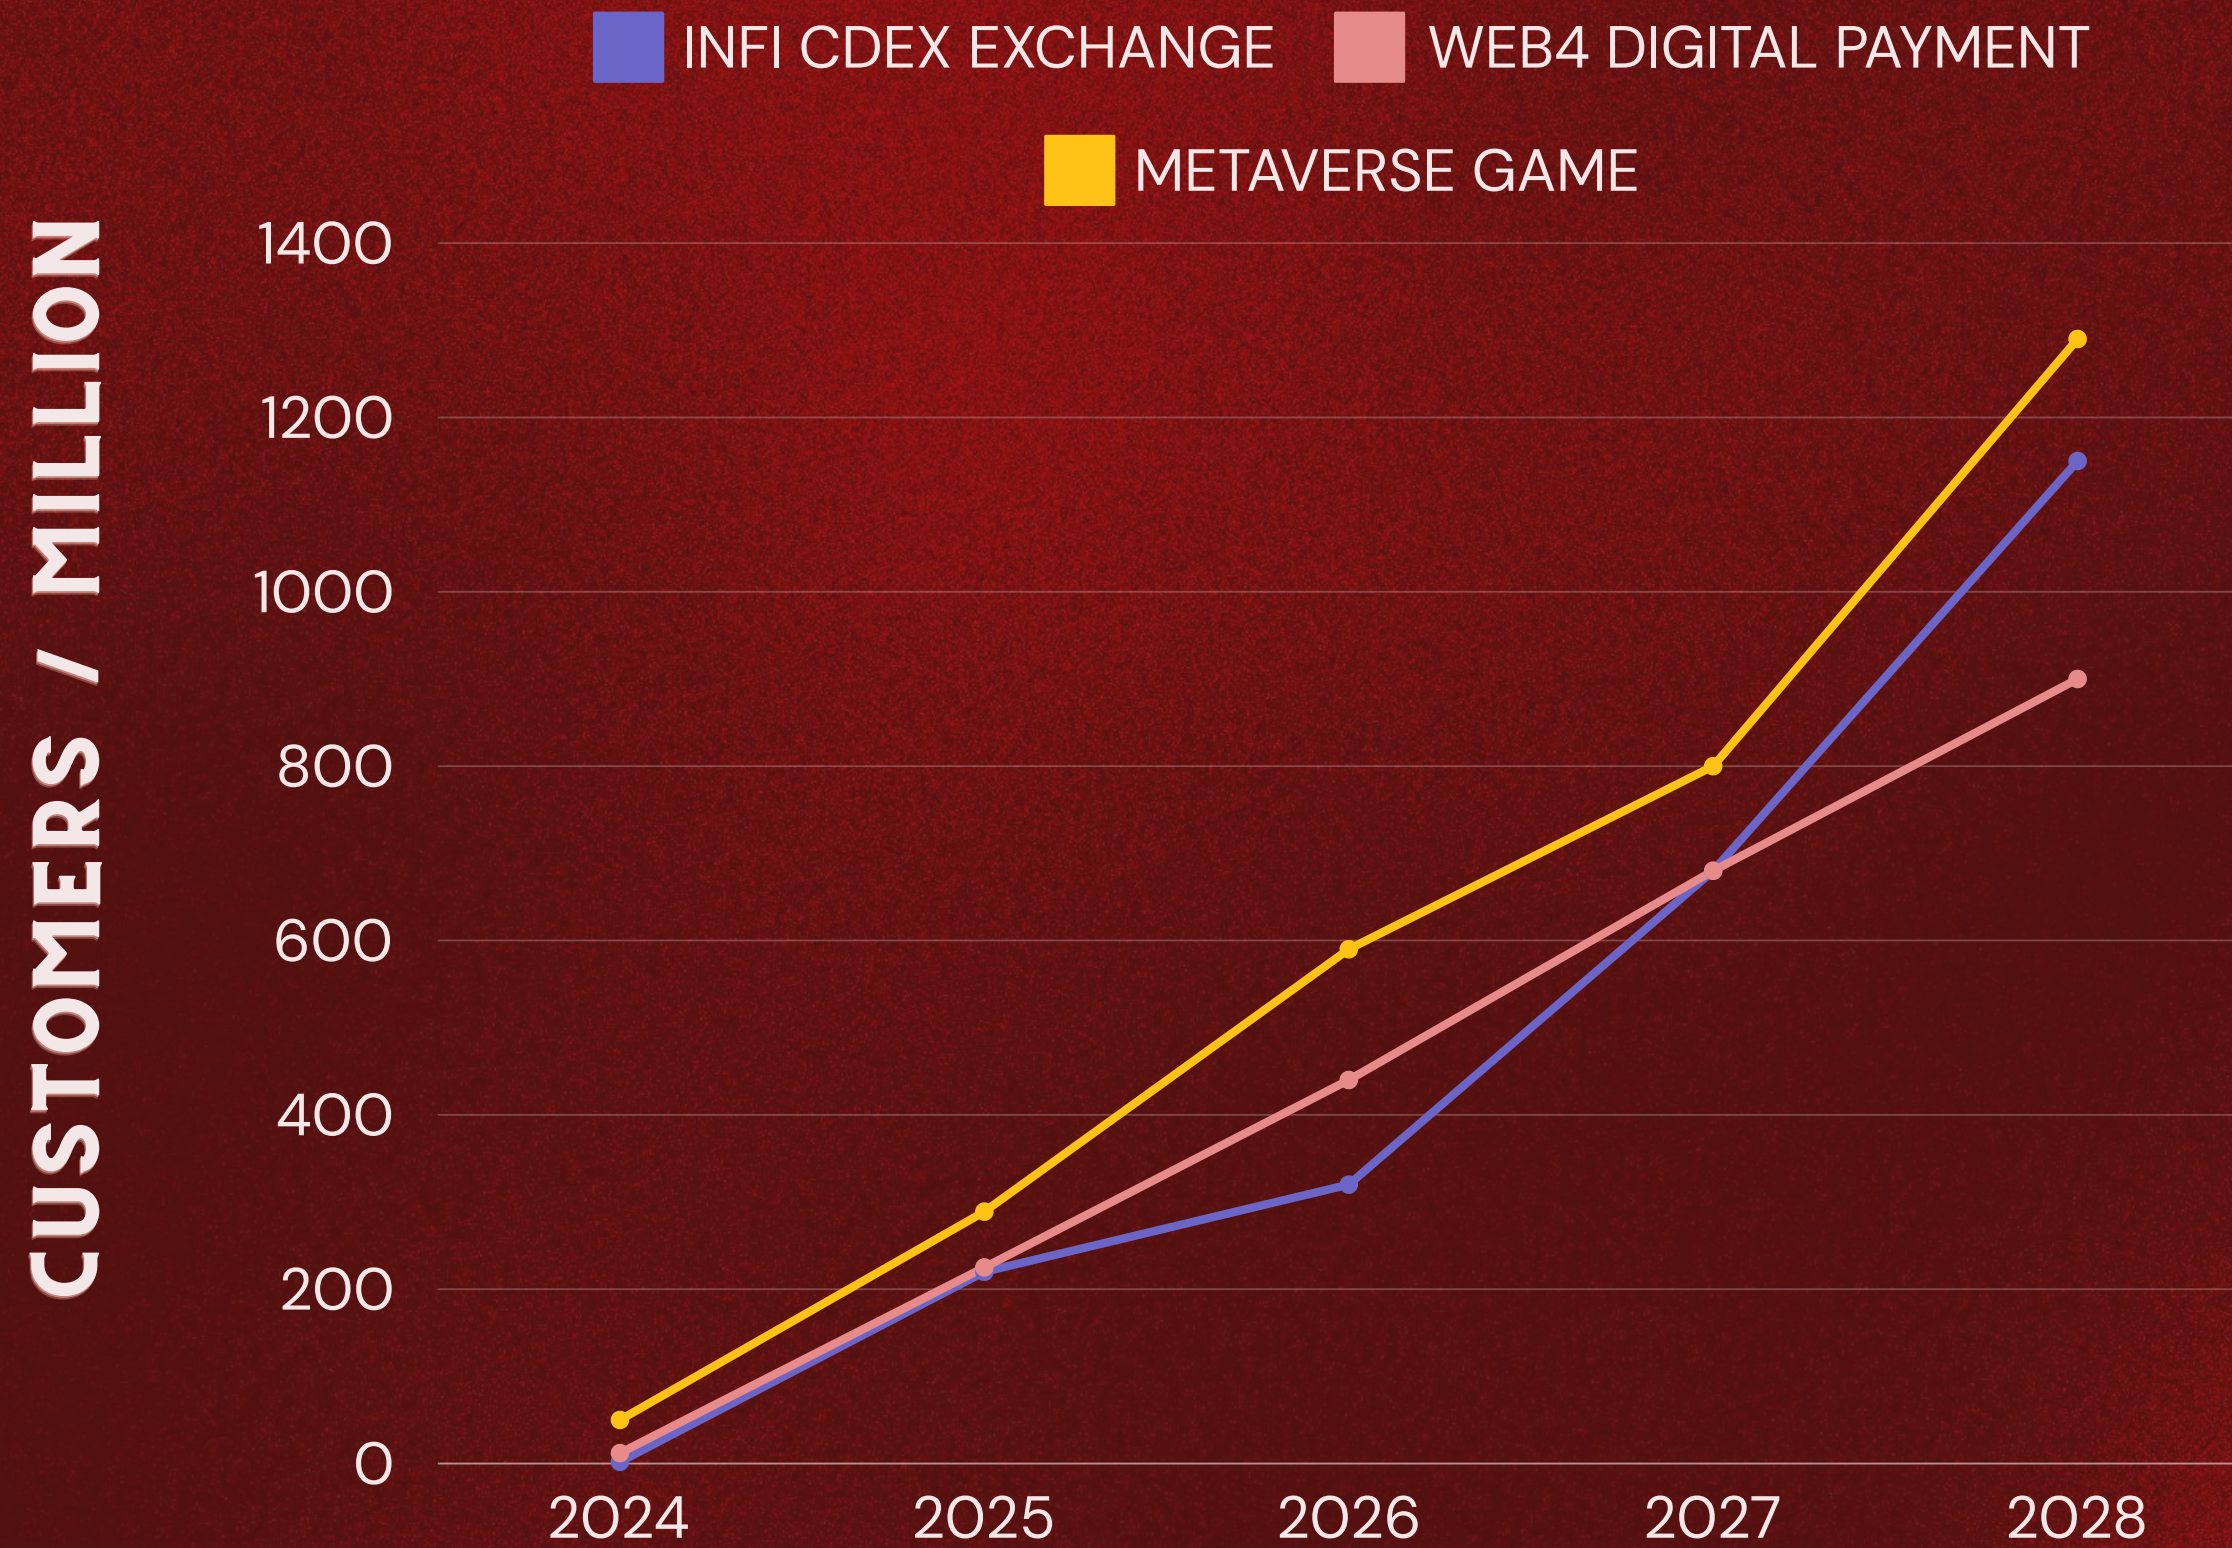

“WEAR TO EARN” METAVERSE GAME

Our "Wear to Earn" Metaverse game concept is inspired by real-life activities, providing players with virtual properties and live events that not only mimic real life, but also mimic what's happening in real life
